AGGREGATE ADJUSTED TOTAL INTERVIEW SCORE (total of Adjusted Total Interview Score for criteria 1 through 4)										87.1667

¹⁰ The Total Technical Score shall exclude the high and low of the Evaluators' scores for each criterion. If more than one Evaluator has inserted a score representing the "high" score or the "low" score for a particular criterion, then only one of those duplicate "high" or "low" scores, as applicable will be disregarded. Notwithstanding this, if, in the Chairperson's discretion, not enough Evaluators scored a particular criterion, the Chairperson may count all scores.

¹¹ The Adjusted Total Interview Score for each criterion will equal the Total Interview Score for the criterion divided by number of Evaluators submitting a score for that criterion, less 2 (if the "high" and "low" scores have been disregarded).
